Before you set out your comments in detail, it would be helpful to know whether you think the Plan is sound and meets the procedural requirements.:

I think that the procedural requirements have not been met

Which part of the Plan (or supporting documents) are you commenting on? Please tick all that apply or use the text box to specify:

Other evidence base report (Please specify below)

Other (Please specify):

We have heard only of this proposal from other residents. I am appalled that such decisions to a small community can be made with no respect for the current residents of Bro'r dderwen. Having children we are extremely concerned for the additional cars driving through. It is already busy with residents, works and supplier vehicles. The access for residents within the village to leave the village safely by foot is not existent. There is no footpath leading to local amenities in Narberth. We have a growing number of children and youth walking up the dangerous road to pembrewin as there are new footpaths there heading to Narberth. There are no work prospects within the village, there is one bus route that passes through 3 times a day. It is absolutely disgraceful that no concerns from residents have been heard and that this continues.
