Many chemists, high street shops and online retailers sell equipment directly to the public, i.e. Argos, Amazon, Tesco, Boots. There are also local suppliers and organisations who sell and hire equipment.

If you are considering purchasing equipment;

- Check out the independent advice available.
- Check out different options and suppliers, prices for the same equipment may vary between suppliers.
- Try before you buy, ask for a demonstration or trial.
- Check the company's policy on returning equipment.
- Consider a warranty.
