1.0 Introduction

By Councillor Rob Lewis,

Cabinet Spokesperson for Highways, Planning, Transportation and Major Events

This is the Fourth annual report which we have published, in accordance with the requirements of the Traffic Management Act 2004. Its aim is to provide information about how Pembrokeshire County Council delivers its parking enforcement and associated services and to place the service in context with our other road network management duties and policies.

We continue to enforce parking restrictions both on and off street on all roads in the County and in all car parks owned by the Council. This report covers the period from 1st April 2014 to 31 March 2015.

If you have any questions or comments regarding our Parking Annual Report, please let us know by telephoning on 01437 764551 or emailing us at parking@pembrokeshire.gov.uk. Thank you for taking the time to read our 2014-15 Parking Annual Report.

2.0 STRATEGY & POLICY

2.1 Background

The Strategic Vision in the Council's Corporate & Improvement Plan emphasises the promotion of an attractive, clean and healthy environment and the Regional Transport Plan gives recognition that traffic management plays an important part in ensuring safe, effective and rational use of the highway.

2.2 Charging Policy

An amended Car Parking Charging Policy was approved by Cabinet on 6 October 2014 and will need further revision following decisions made at Cabinet on 7 July 2015 (following resolution to introduce new charges at certain non-charging car parks). Charges for car parking take account of the following principles.

- The need to encourage retail trade;
- The need to manage traffic, including on-street parking and traffic flows;
- The need to manage demand effectively;
- The nature of parking location and its users, i.e. urban shopper/business, residential, rural town shopper, beach/visitor;
- Comparison with other providers in the locality;
- The need to encourage the use of more sustainable forms of transport, including public transport;
- Charges are not set purely in order to derive income;
- Have regard to the overall revenue budget provision (expenditure and income) for car parks;
- A presumption in favour of improvements being funded by increased tariff.

These principles are applied consistently, which results in different charges from place to place.

2.3 Demand Management:

Car parking charges have been considered on a location by location basis. Car parking charges in Pembrokeshire are set to encourage shoppers, and are likely to require short-stay spaces. Where car parking is subject to high demand and/or limited capacity, then parking periods and tariffs are carefully set to optimise turnover

3.0 Parking Provision in Pembrokeshire

3.1 Off Street

The Authority manages car parks to provide for both short stay and long stay users. Charges apply in accordance with Council Policy.

Disabled provision is in accordance with the guidance issued by DfT.

3.2 On Street

The Authority provides on street parking facilities on the adopted public highway where it is considered appropriate to do so without undue interference with moving traffic. It makes provision for limited waiting, disabled, loading, taxi, motor cycles and residents.

It has developed robust and fair practices to manage the kerb side to cater for the competing demands of the various users. No restrictions have been implemented that do not have a traffic regulation order to support them.

4.0 Our Services

4.1 Off Street Parking

The Council has both charging and non charging Carparks; Details are on the council website www.pembrokeshire.gov.uk. Pembrokeshire County Council has 97 car parks of which 32 are pay and display. 18 have charges applying all year round and 14 seasonal charges.

Between 1st April 2014 and 31st March 2015 the following were issued

- 120 season tickets
- 107 reserved bays permits
- 134 Tenby Harbour permits.

A minimum of 6% of spaces have been set aside for blue badge holders. The Council waived charges on certain days in December in the lead up to Christmas in all paying car parks through the County.

4.2 On Street

There are currently 840 limited waiting spaces, 127 disabled spaces, 33 Taxi spaces, 3 Bus bays, 26 bays for Loading / Goods unloading bays, 1 ambulance bay and 1 motorcycle bay. Within the overall spaces there remain 668 spaces for Resident / Business Permit Holders.

4.3 Resident Parking

Resident Parking Schemes have been introduced, where practicable, on a number of streets/locations across the County. There are currently 58 schemes in operation, full list on Appendix 1 All schemes on the public highway are operated under the same regulations, one permit to a property to a specific vehicle. Permits are valid for a period of up to 12 months. A cost of a permit is £40.00. Visitor permits are available for periods of up to 7 days at

a cost of £20.00, again one to a property to a specific vehicle. Proof of occupancy, valid insurance and MOT certificate must be provided.

A non-highway scheme is operated in Tenby Harbour where one permit is issued to each property but is not vehicle specific. Cost of a permit is £100 and has not risen since 2003.

There were 873 annual permits issued between 1st April 2014 to 31st March 2015 and 220 visitor permits.

4.4 Parking Dispensations

The Council does allow, in certain circumstances, by the issue of a dispensation, a vehicle to park lawfully in contravention of a Traffic Regulation order. It may also suspend parking places for the purposes of reserving those places for particular vehicles and/or applicants.

Dispensations will be issued by way of a temporary permit containing the details of the event, the vehicle registration, date and time of use. The permit must be clearly displayed on the front windscreen of the approved vehicle.

133 dispensations were issued 1st April 2014 - 31st March 2015.

5.0 Civil Parking Enforcement

5.1 Parking and Streetcare Teams

Combining the management and enforcement of both on and off street parking provides considerable operational and community benefits. In April 2013 the Parking service team and streetcare team were combined under one operational manager. Both sections still have their own remit, however, the benefits of this combined service includes:

- Co-ordinated enforcement and control of on and off street parking
- Co-ordinated enforcement of all highway related issues
- Co-ordination of activities on the highway network
- Management and co-ordination of event affecting on street and off street activities
- Co-ordination of third party works on the highway
- Managing all licensed activities on and off street
- More effective implementation of policies

5.2 Running CPE

Pembrokeshire currently employs 12 Civil Enforcement Officers, 2 Technical Clerks and 3 Parking Services Officers; they are all supported by the Streetcare and Parking Manager. They do not receive any performance related bonuses or incentives.

Penalty charge notices are issued to vehicles that are parking in contravention of restrictions. If a motorist wishes to dispute a PCN they must follow the appeal process which is detailed on the rear of the PCN.

Having operated CPE since February 2011 the Parking Services staff has built up a comprehensive understanding of where and when indiscriminate parking occurs. However, when members of the public are experiencing particular parking problems they can report them to the office.

The parking services team are also responsible for the management of all car parks, Pay and Display machines, financial matters, Resident Permits, Car Park Season and Reserved Tickets, Parking Dispensations and Car Park Licenses. .

5.3 The Back Office - Wales Penalty Processing Partnership (Wales PPP)

The Wales PPP back office continues to be used to process the issued PCN's. There are quarterly meetings, an officers working group, with representatives from each Partner Authority to discuss operational consistency, shares best practice and strives for continual efficiency savings.

5.4 Enforcement Agents

The Council currently uses the services of four bailiff companies to recover debts, Excel, Proserve, Swift and A J Enforcement. All have considerable experience in this work and provide similar services to other Wales PPP councils as well as our SWWITCH partners Carmarthenshire County Council, City & County of Swansea and Neath Port Talbot County Borough Council.
