

JOHNSTON COMMUNITY PRIMARY SCHOOL

A £6.4 million new build 3 – 11 primary school to replace the existing primary school and extend the schools provision to include a Learning Resource Centre for pupils with Additional Learning Needs.

The main reasons and the advantages of the scheme was:

- to provide education in a building that was structurally safe, sound and fit for purpose;
- to provide classroom spaces which complied with recommended areas defined in the Building Bulletin and which allowed for flexibility for expanding need;
- to provide a 21st Century learning environment which would provide an improved standard for education and have enhanced facilities for library/IT/sports;
- to provide education in a building that enabled staff to deliver the curriculum in a stimulating and safe environment and that provided suitable resources;
- to accommodate all pupils of primary school age living within the catchment area and to provide for a growing demographic;
- to provide a resource base to support pupils with complex learning needs across both Key Stages 1 and 2;
- to provide up to date facilities for community use and wraparound care provision;
- the provision of the same standard of education provision as neighbouring schools.
