# **Changing Day Opportunities**

**Consultation**

**Asking what you think**

**July 29<sup>th</sup> - October 14<sup>th</sup>**

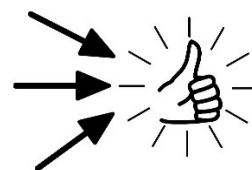

**Lots of people with learning**

**disabilities do things in the day.**

**These are called Day**

**Opportunities.**

Some people go to day centres run by the Council.

Some People work at Norman Industries.

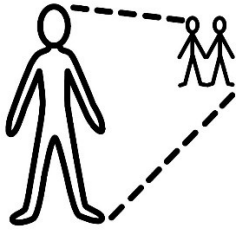

Some people do things in the day with Carers.

Some people use a Direct Payment to pay a PA. PA means personal assistant someone who is paid to support you.

Some people do volunteering.

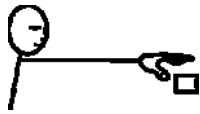

There are lots of other places people go,  
like FRAME and Value Independence.

Community Connectors help people find  
out what's going on.

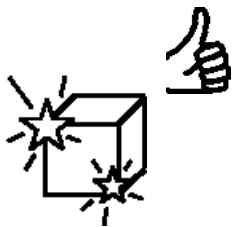

Pembrokeshire County Council wants to make Day Opportunities better.

They want them to:

Help people reach their goals.

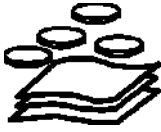

Have better quality for everyone.

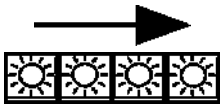

Be better at getting people doing things in their communities.

Have more choice.

Be value for money.

Work well now and in the future.

**They want to work with everyone to do this together.**

**They had 13 events to ask lots of people what they think.**

**234 people said:**

What is working well.

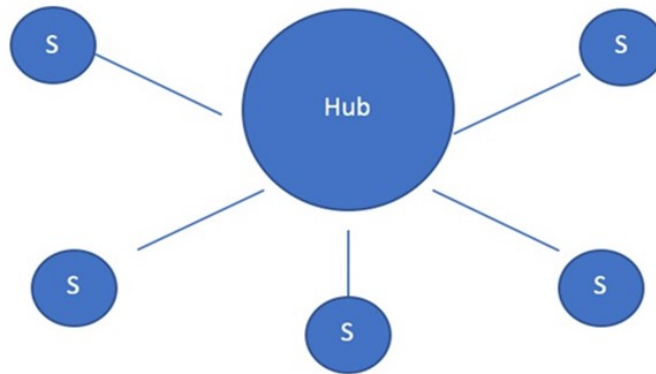

What is not working so well.

What we can do together to make things better.

They made a plan from what people told them. It is a **Hub and Spoke** model.

A **hub** means a centre. At a hub you can:

Get specialist care and support.

Link in with things going on in the community.

Get specialist therapies like speech and language or physio.

Get information on services, money and benefits.

Get information about things going on.

Go to drop in sessions from other organisations.

The spokes are the things around the hub.

These are things in the community.

Like sports clubs

Places to learn things.

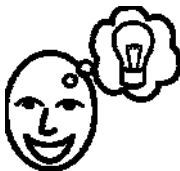

Places to volunteer.

The hub would support these things.

And support people to go there.

There are 2 ideas.

# Idea 1

# 4

Up to 4 hubs

The hubs would be in:

Pembroke Dock

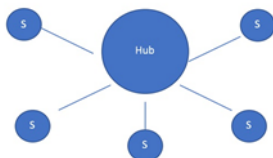

Tenby

Haverfordwest

Crymych

People could use them if it is in their care plan.

There would be a number of spokes at each hub.

## Idea 2

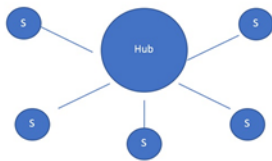

2

2 hubs

One in North Pembrokeshire

One in South Pembrokeshire

There would be a number of spokes at each one.

Plus

More work with other Counties so people don't have to travel so far.

More work with Direct Payments.

Trying new things like **pooling**. That is putting money from Direct Payments together to buy a service with others.

People can get more for their money this way and spend time with others.

More work with Community Connectors.

Looking out for new projects.
